DETAILED ACTION

Allowable Subject Matter

1. Claims 1-32 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record, US Patent 6,084,241, discloses an input table 92 including a plurality of entries, each of which is associated with one binary encoded value of the Internet address (fig. 8 col. 20 lines 53-65). However, the prior art of record fails to teach or make obvious the step of or means for **"storage structure including a plurality of fields for storing pre-computed arbitration results based on a select arbiter scheme employed in a particular scheduling mechanism for transporting said data, wherein each arbitration result corresponds to at least a particular input combination"**, when such storage is considered within the specific structure of the device recited in claim 1 or the method recited in claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
